Care Responsibilities

I worked as a social worker on the short-term rehabilitation unit. In this position, I assisted clients with discharge planning and securing in-home services prior to discharge. I led regular care conferences with clients, their families and the interdisciplinary team to determine discharge goals and offer recommendations. In this role, I assisted with setting up needed in-home services including nursing, caregivers, physical, occupational and speech therapy, medical and non-medical equipment and anything else needed to ensure a successful transition home. In addition, I assisted with finding alternate living environments if we were unable to discharge back to the previous living situation. I served as the primary contact for client concerns/grievances, and was responsible for completing admission and discharge paperwork, social histories and Medicare-required assessments.
